### **Guidelines for Parents :**

It's time for the parents to nurture the child. Parents are the child's first and most important teacher, they can encourage their child's love of learning by participating in educational activities at home. Working together on the activities will help the child build confidence, learn to reason and develop skills necessary for his/her education.

1. Parents can be the facilitators for the child at home but let the child complete his work independently & in his own handwriting
2. The child should have a fixed time daily for doing assignments.
3. Before coloring, guide him / her to color in the same direction.
4. 'Reading book is fun'. Inculcate the habit of reading in your child.
5. Nurture your child's interest – be it art, music, dance or anything else.
